

Diabetes and Dyslipidemia Symposium

Wednesday, 29th April, 勵學大樓4F第四會議室

Time	Topic	Speaker	Moderator
13:55-14:00	Open Remarks		
14:00-14:40	A Novel Metabolic Signaling Molecule In Diabetic Nephropathy: Role of Hedgehog Interacting Protein (Hhip)	Professor Shao-Liang Zhang (University of Montreal, Canada)	Professor Chu-Huang Chen (Director, Vascular and Medicinal Research, Texas Heart Institute, USA)
15:00-15:20	The interaction between Steap4 and S100B in diabetic nephropathy	Professor Lea-Yea Chung(莊麗月), (Kaohsiung Medical University)	Professor Chu-Huang Chen Professor Shao-Liang Zhang
15:30-15:50	Epigenetic mechanisms in diabetic nephropathy and metabolic memory	Associate Professor Tusty-Jiuan Hsieh(謝翠娟), (Kaohsiung Medical University)	Professor Chu-Huang Chen Professor Shao-Liang Zhang
16:00-16:20	Angiopoietin-like proteins prevent glomerular injury induced by very low density lipoprotein of metabolic syndrome	Professor Shang-Jyh Hwang(黃尚志), (Kaohsiung Medical University)	Professor Chu-Huang Chen Professor Shao-Liang Zhang
16:30-16:50	Atherogenic lipoprotein causes kidney disease via RBP4 receptor	Professor Shyi-Jang Shin(辛錫璋), (Kaohsiung Medical University)	Professor Chu-Huang Chen Professor Shao-Liang Zhang
